### THE FIRM

Tracing our origins to 1893, today Jones Day encompasses more than 2,500 lawyers resident in 32 locations worldwide and ranks among the world's largest and most geographically diverse law firms. Surveys repeatedly list Jones Day as one of the law firms most frequently engaged by US corporations, and many of our lawyers have achieved national recognition in their disciplines.

Our commitment to our clients has repeatedly earned the Firm the No. 1 ranking for client service by The BTI Consulting Group. The award is based on survey results from *Fortune* 1000 corporate counsel. In 2009 Jones Day once again received the highest ranking in the survey. In fact, since the inception of the BTI Client Service Ranking nine years ago, Jones Day

is the only firm to have earned top ratings year after year. In every survey, Jones Day has ranked in the top five, and our consistent high ratings have earned us a place among the elite few firms elected to the BTI Client Service Hall of Fame.

In 2008 *The American Lawyer* named Jones Day the nation's best Labor & Employment practice as part of the magazine's prestigious "Litigation Department of the Year" competition. In 2004, the Firm was also named "Product Liability Department of the Year" by *The American Lawyer*, as well as a top-five finalist for "Litigation Department of the Year". Thomson Reuters, one of the foremost authorities on financial-industry performance, has ranked Jones Day No. 1 for number of M&A deals completed worldwide in each quarter since the end of 2000.

The Firm acts as principal outside counsel to, or provides significant legal representation for, more than half of the *Fortune* 500 companies. We also represent a wide variety of other entities, including privately held companies, financial institutions, investment firms, health-care providers, retail chains, foundations, educational institutions and individuals.

Jones Day is an integrated partnership that operates as “One Firm Worldwide”, and this structure brings the appropriate talent and experience from across the Firm to bear on matters originating in any office. Our goal is to demonstrate sensitivity to clients’ objectives and understand the economic issues, industry trends and client concerns implicated by the problems, transactions and controversies brought to our attention.
