The 2010 reauthorization of CAPTA includes definitions, such as "sexual abuse," that do not explicitly include the term trafficking but	<b>The Trafficking Victims Protection Act (TVPA) of 2000</b>  <a href="#">22 U.S.C.A. §§ 7101 – 7114</a> The TVPA is the first comprehensive federal law to address human trafficking and it provides a three-pronged approach to addressing trafficking. In addition to the protections offered through immigration relief for foreign national victims of human trafficking, it also focuses on prevention through public awareness programs, both domestically and abroad, and prosecution through new federal criminal statutes. As a result of the TVPA and subsequent reauthorizations, the FBI has been provided with statutory authority to investigate matters of forced labor;	<b>Stop, Observe, Ask, and Respond (SOAR)</b>  <a href="#">42 U.S.C.A. § 300d-54</a> The US Department of Health and Human Services (HHS) launched the Stop, Observe, Ask, and Respond (SOAR) to Health and Wellness Training program in 2013 to provide human trafficking training to health care and other related professionals.

<sup>2</sup> There are two sets of colored highlighting in this chart to assist the reader. In **yellow** (LA, RI), state requirements are highlighted that mandate reporting for certain adult victims (those above the age of 18) of human trafficking. This highlighting does not capture reporting of "vulnerable" adults, as defined by the states which have separate reporting requirements for elderly and other incapacitated adults. In **blue** (DC, GA, HI, ID, IL, KS, KT, LA, MA, MD, MS, MT, NC, NE, NH, OK, OR, PA, SC, TX, UT, VA, VT, WV) state requirements are highlighted that mandate reporting for minor victims of labor trafficking. Often these states affirmatively include labor trafficking as part of the definition of child abuse.

<sup>11</sup> Hawaii state legislators have introduced a number of bills during the current session to address human trafficking education for healthcare providers. [HB 722](#) would provide a training program as well as statewide assessment tools for medical professionals for use in identifying victims. This bill died in chamber in 2021, but was carried over to the Regular 2022 Session. [SB 3245](#) would require emergency rooms and urgent care clinics to post a notice including information about the National Human Trafficking Hotline and other resources. This bill was re-referred to committee on February 17, 2022.

<sup>12</sup> [HB 579](#) was recently passed by the Hawaii Legislature to establish a statewide human trafficking prevention program within the Department of Attorney General. Notably, the Attorney General will be tasked with outlining a plan for a training program for mandatory reporters of child abuse, which includes medical professionals. Moreover, the Bill will require the Attorney General to develop statewide assessment tools that first responders and medical professionals can use to identify victims.
